Impacts of the SPoC in the Family’s Words....

“Share with school and other therapists outside of [clinic].”

“We have shared with our local EMT team for their knowledge in helping us. Also we have used when updating our private duty nursing prior auth and it has been helpful in collecting needed information....”

“Using the shared care plan was valuable for getting guardianship. I keep a copy on us at all times in event of emergency.”

Consider sharing:

• How has your work changed?
• Utilizing Telehealth? Seeing patients in clinic?
• How have families been impacted?
• Have you been able to work or resume working on the SPoC project?
• How may this affect your program and the care you provide in the future?
• Stronger, new or unexpected partners?
• What questions do you have for other teams?
• What support or resources do you need?
