Jefferson County Drug Free Coalition

Jefferson County Health Department 1541 Annex Rd. Jefferson, WI 53549

Mission

To prevent and reduce alcohol, tobacco, and drug abuse among youth and the greater community through county-wide collaboration.

Vision

An environment free of alcohol, tobacco, and drug abuse among youth and the greater community.

How we get there

Education

Treatment

Enforcement

Collective Impact

 Idea that organizations should form crosssector coalitions in order to make meaningful and sustainable progress on social issues.

Carl Alves, Community Change Through Collaboration, Power Point presentation, 4/9/2018. Wisconsin Opioid Conference.

Our partners

- Schools
- Recovery community
- Hispanic community
- Libraries
- Hospitals
- Youth serving groups
- Faith group
- Law enforcement
- Youth
- Businesses

Comprehensive Strategies

- Provide information
- 2. Build skills
- 3. Provide support
- 4. Reduce barriers/enhance access
- 5. Change consequences/incentives
- 6. Alter the physical design of the environment
- 7. Change policy and rules

How we know there is a problem

- Environmental scans
- Data collection
- Town Halls
- Community surveys
- Focus groups

Past 30-day Use MS and HS

Table 1. Past 30-da	ay Use Averages Grades 6-12/2016-2017	Grades 6-8	Grades 9-12
Alcohol	Had at least one drink of alcohol	6.2%	27.5%
Binge Drinking	5 or more drinks in a row within 2 hours	1.3%	16%
Tobacco	Smoked cigarettes on at least one day	0.7%	8.3%
Marijuana	Used at least one time	1.5%	14.2%
Rx Drug	Took Rx drug without doctor's Rx	NA	NA

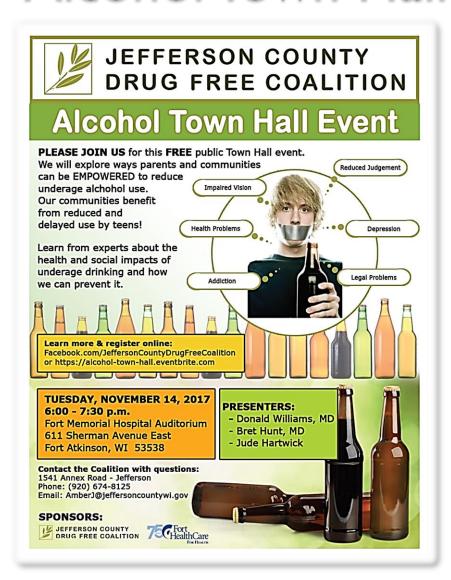

- Select middle and high schools in Jefferson County
- 10-fold increase in binge drinking, current tobacco use, and marijuana use between MS and HS.
- Use of Rx drugs as least once in a lifetime increased slightly between 2015 and 2017 for MS and HS. (not on table)

Past 30-day use Middle School

Table 2. Past 30-0	day Use Averages by Grade 6-8/2017	Grade 6	Grade 7	Grade 8
Alcohol	Had at least one drink of alcohol	4.3%	3.9%	9.3%
Binge Drinking	5 or more drinks in a row within 2 hours	1.1%	0.6%	3.6%
Tobacco	Smoked cigarettes on at least one day	0.2%	0.3%	2.8%
Marijuana	Used at least one time	0.4%	0.3%	2.8%
Rx Drug	Took Rx drug without doctor's Rx	NA	NA	NA

- Most prominent increases between 7th and 8th grade.
- The use of Rx drugs at least once in a lifetime (not shown in table) increased from 2.9% in 6th grade to 5% in 7th and 7.3% in 8th grade.
- Alcohol is the most prevalently used substance in this age group.

Alcohol Town Hall

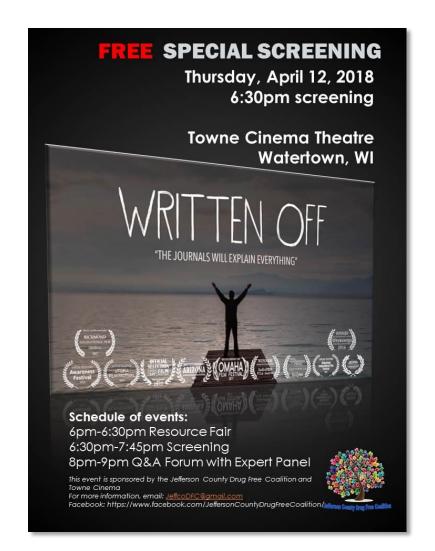

- Provided education about the dangers of underage drinking
- Distributed
 refrigerator locks at
 no cost to those who
 attended
- Generated a two-part article in the Daily Union

Opioid Town Hall

- Resource Fair
- Documentary film screening
- Q&A session

Thank you, Towne Cinema!

Opioid Town Hall

- Collaboration between partners
- Stigma reduction

Outreach

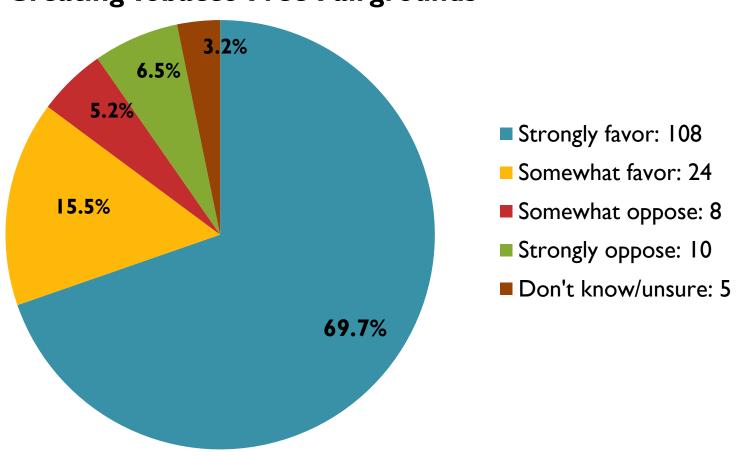

- Meeting with State Rep. Jon Jagler, Mayor of Watertown John David
- Host booths, informational tables

Smoke-free Air at the Fair!

Creating Tobacco Free Fairgrounds

Overdose Prevention Training

OVERDOSE PREVENTION NARCAN TRAINING

SAVE A LIFE! THIS EVENT IS FREE AND OPEN TO THE PUBLIC

Where?

Jefferson Public Library, 1/17/2018 @ 6 pm*

Irvin L Young Memorial Library (Whitewater), 1/29/2018 @ 6 pm

Johnson Creek Public Library, 1/30/2018 @ 5:30 pm

Dwight Foster Public Library (Fort Atkinson), 2/6/2018 @ 6 pm*
Karl Junginger Memorial Library (Waterloo), 2/19/2018 @ 6 pm

Watertown Public Library, 3/6/2018 @ 6 pm

Powers Memorial Library (Palmyra), 3/7/2018 @ 6 pm Lake Mills Public Library, 3/20/2018 @ 7 pm *Available in Spanish

Organized by the

Jefferson County Drug Free Coalition
 In partnership with the Jefferson County Library System
 and the AIDS Resource Center of Wisconsin

WHAT?

Training to:

- · Prevent an Overdose
- · Recognize an Overdose
- Respond to an Overdose

Those in attendance can receive a free Narcan kit

(overdose reversal drug)

WHO?

Concerned family, friends and community members

WHY?

Be part of the solution to the growing Rx drug and heroin epidemic!

Potentially SAVE a LIFE!

OUESTIONS?

Contact the Coalition: Phone: (920) 674-8125 Email: JeffcoDFC@ gmail.com

- 8 trainings held throughout Jefferson County
- Trained 196
 participants
- Two free doses of Narcan
- Available in Spanish

Thank you, public libraries!

- Lake Mills Public Library
- Video recording available on our Facebook page

Drug Deactivation Kits

Have Leftover Medicine?

Use these kits!

Be part of the solution to reduce accidental poisoning and drug deaths. These bags will deactivate drugs in your medicine cabinet and they are FREE at the following locations (while supplies last):

Hometown Pharmacy	Hometown Pharmacy		
372 E. Tyranena Park Rd.	204 E. Main St.		
Lake Mills, WI 53551	Watertown, WI 53094		
(920) 945-2500	(920) 261-1900		
Tuttle's Pharmacy, Fort Atkinson	The Drug Store-Mueller Drugs		
102 S. Main St.	132 S. Main St.		
Fort Atkinson, WI 53548	Jefferson, WI 53549		
(920) 563-2458	(920) 674-5733		

For more information contact the Jefferson County Drug Free Coalition; JeffcoDFC@gmail.com or call (920) 674-7232

¿Tiene medicamento que le sobra?

¡Utilice estos paquetes!

Sea parte de la solución de reducir el envenenamiento y muerte accidental por drogas. Estas bolsas desactivarán cualquier medicamento que sobre en su botiquín y están disponibles SIN COSTO en los siguientes lugares (hasta agotar existencias).

Hometown Pharmacy	Hometown Pharmacy	
372 E. <u>Tyranena</u> Park Rd.	204 E. Main St.	
Lake Mills, WI 53551	Watertown, WI 53094	
(920) 945-2500	(920) 261-1900	
Tuttle's Pharmacy, Fort Atkinson	The Drug Store-Mueller Drugs	
102 S. Main St.	132 S. Main St.	
Fort Atkinson, WI 53548	Jefferson, WI 53549	
(920) 563-2458	(920) 674-5733	

Para más información comuníquese con la Coalición Libre de Drogas del Condado de Jefferson al JeffcoDFC@gmail.com o llame al (920) 674-7232.

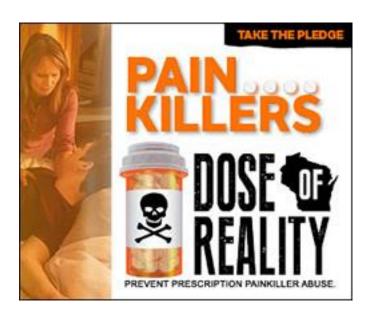

Medication Disposal

Johnson Creek Police Department received the latest medication drop box on March 21, 2018.

- Campaign during April 22-28
- Radio commercials
- Newspaper advertisements in three local newspapers
- Press release

https://doseofrealitywi.gov/program-materials/

Parents Who Host Lose the Most

- Will begin soon! During graduation and prom season
- April is Alcohol Awareness Month
- Yard signs, posters, flyers, stickers to be distributed throughout community
- Promote New Social Host Law

How are we funded?

- Currently no state funding to support community anti-drug coalitions
- Alliance for Wisconsin Youth (AWY)
- Health Department
- Human Services
- Mini-grants from WI Department of Health Services (DHS)

In-kind Support

- Tobacco-Free Community Partnership
- Partnering agencies
- Coalition members
- Media

Drug Free Communities Grant

- Large federal grant, best source of prevention dollars
- Data, we need it
- Comprehensive strategies and thorough evaluation plan
- 12 sectors must be represented
- \$125,000 for five years

Coalition Development

- Bylaws
- Strategic planning
- Buy-in
- Increasing capacity

What do we still need?

- Youth Risk Behavior Survey data
- Community data
- Effective strategies to address opioid use prevention

Next Steps

- Build capacity
- Design activities that address needs
- Implementation
- Evaluation

Come see what's it's about

Coalition membership and meetings are open to all

Meetings are the 2nd Fridays of every month from 8-9am at UW Extension

Data Driven Response: Prevention of Opioid Overdoses

Lisa Bullard-Cawthorne, MS, MPH
Program Coordinator, Opioid Harm Prevention Program

Opioid Overdose-related Deaths by County, Wisconsin, 2013-2015

Wisconsin Injury Prevention

Rapid Response Project: Women & Opioids

- Primary prevention of opioid exposed pregnancies
- Enhance comprehensive care for pregnant women with opioid use disorder
 - Link pregnant women with recovery coaches

Opioid Harm Prevention Program Overview

Funded through the CDC grant Prescription Drug Overdose: Prevention for States

Prevent Opioid Harm

The Opioid Harm
Prevention Program
uses a multi-faceted approach
to prevent opioid harm.

Community and Health Care Interventions

- Provide and improve data access and analysis
- Improve prescribing practices for pain management
- Incresase access to complementary and integrative therapies
- Multi-faceted, multi-disciplinary approach that addresses diverse perspectives
 - Overdose fatality reviews
 - Support local health departments

Prescription Drug Monitoring Program Enhancements

- Improve system's usability and utility
- Promote enhanced PDMP (ePDMP)
- Influence prescribing practices
 - Link ePDMP with electronic health records

Policy Efforts

- Implement, promote and evaluate Statewide Standing Order for Naloxone
 - Support Heroin, Opioid Prevention and Education (HOPE) agenda

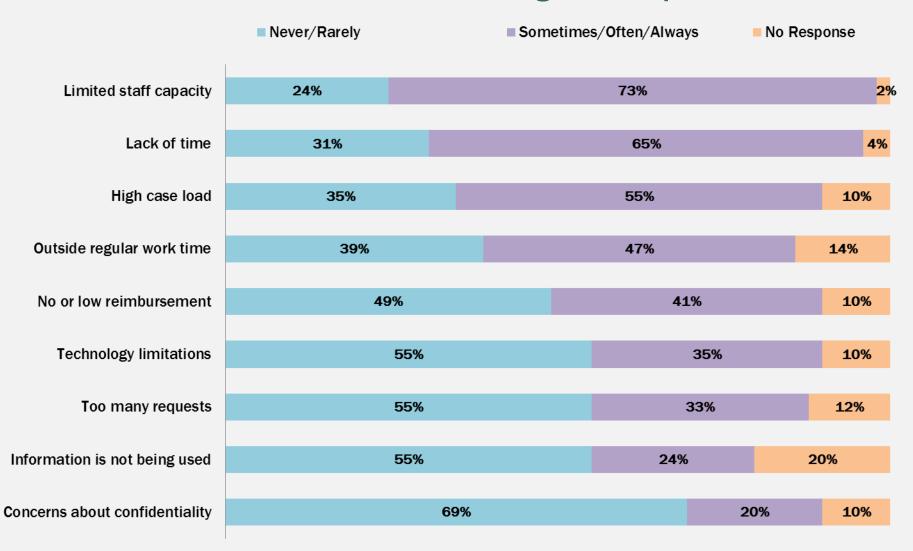

Conducted April 2017

49/72 = 68% Response

How often does your office experience the following barriers when asked to submit death investigation reports?

What would make it easier or more efficient for your office to submit your death investigation reports?

- Having a standardized and/or simplified reporting system or a fillable form (31%)
- More time/resources (16%)
- More clear/consistent information and guidelines (16%)
- Ease of submission methods (13%)
- No problems submitting reports (19%)

Would it be helpful to have a scene investigation checklist/reminder pocket card to be sure to capture the information needed for the WVDRS?

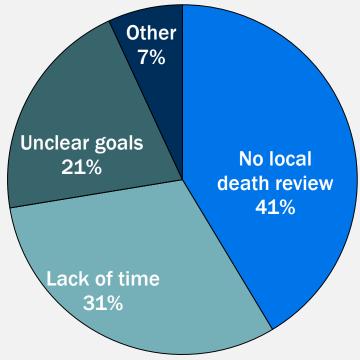

• 79% of respondents said it would be helpful to have a scene investigation checklist/reminder pocket card.

Fatality Reviews

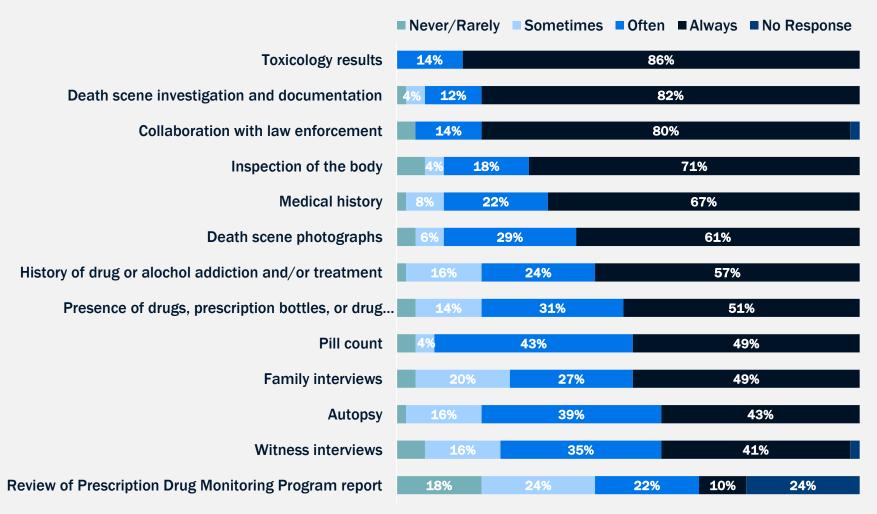

Does your office participate in a local fatality review?

58% of respondents participate in a local fatality review. The majority are child-related fatality reviews.

If not, why not?

How often does your office rely on each of the following information to determine the cause of death for a suspected drug overdose?

Survey on Use of Toxicology Testing

- Completing the contributing/underlying cause of death was most often indicated as to how the toxicology testing results were used.
- Turn-around time and scope of testing were the most important reasons for choosing a toxicology laboratory and cited as a reason for not using the WSLH
- For WSLH to improve timeliness and scope of testing, research was done and funding obtained to purchase a new screening and analysis instrument - Time of Flight (QTOF)

Prescription Drug Overdose Prevention for States (PDO PfS) Overdose Fatality Reviews

Keeping Kids Alive in Wisconsin April 18, 2018

Mallory O'Brien, MS, PhD Institute for Health & Equity Medical College of Wisconsin

Overview of Project

- Developed in partnership between:
 - Wisconsin Department of Health
 - Wisconsin Department of Justice
- Incorporates NVDRS and CDR frameworks
- Funds 12 Sites over 3 years to pilot OFRs
- Funding: CDC and WIDOJ
- Builds partnerships and collaboration at the state and local level

Selection Criteria

- Process
- Readiness Assessment
- Scored
- Letters, LE letters, TAD, Rx Court/Diversions, prior experience, 3 year rate, 3 year count, need, strengths
- Statewide coverage

Sites

- Rural, Urban, Statewide Distribution
- Variation Lead Agency
- Y1
 - Milwaukee, Sauk, Kenosha
- Y2
 - Winnebago, Dane, La Crosse plus 2 sites
- Y3
 - Four new sites

Toolkit

- Training curriculum
- Training manual
- Data collection tool
- Forms

Data Collection Tool

- Link with NVDRS
- Incorporates Maryland Elements
- REDCap
- Agency Based
- Secure Environment
- Develop Template Reports with input from sites and DHS

Training Roadmap

- Ongoing site technical assistance
- Overview of OFR
- Training for stakeholders
 - Process, value, stakeholders, challenges, expectations
- Developing monthly all site call

Success/Lessons/Opportunities

- Planning Phase extended
- Overwhelming support
- Overwhelming request for participation
- Sharing lessons
 - Other states, Virginia, Washington, Pennsylvania
 - NIJ
 - CDC (Community of Practice)

Overdose Fatality Reviews

Overdose fatalities <u>are</u> preventable.

Overdose Fatality Reviews

- A systematic process used to examine the underlying cause of overdose fatalities in real time and problem solve.
- The overdose fatality review team is made up of an interdisciplinary group of practitioners that meet regularly to discuss the cause of recent or past overdose fatalities and ways to prevent similar overdose fatalities from happening in the future.

Overview of the Review Model

Examples of Review Models

- Child Death Reviews
- Fetal Infant Mortality Reviews
- Homicide Reviews
- Critical Incident Reviews
- Sentinel Event Reviews
- Maternal Mortality Review
- Sexual Assault Reviews

Reviews that Shaped Wisconsin Overdose Fatality Review

- Fetal Infant Mortality Reviews/Child Death Reviews
- Milwaukee Homicide Review Commission
- Kenosha County Self-Harm Death Analysis Review Team
- Maryland Overdose Fatality Review

Premise of Review Models

- In Depth Case Review
- Better, more detailed, timely information
- Multi-agency, multi-disciplinary
- Identification of risk and protective factors
- Identification of missed opportunities
- Development and implementation of data driven prevention/intervention strategies
- Timely dissemination of findings
- Prevention of future events

Overview of Review Process

GOALS

- To better understand the nature of overdose fatalities through comprehensive information sharing
- 2. To develop innovative, proactive responses
- 3. To **strategically** focus limited prevention and intervention activities on identifiable risks

OFR Partners

- Medical Examiner/Coroner's
 Office
- Law Enforcement/Jail
- EMS/Fire Department
- Hospital Systems
- Colleges/Universities/Schools •
- District Attorney's Office
- Department of Corrections
- Courts Treatment,
 Alternative and Diversions
 (TAD)

Department of Children and Families

Social Services Providers

Public Health

Treatment Providers

Community Service Providers

Mental Health Professionals

Clergy

Collaboration

Collaboration is the most vital component to the review process.

- Every benefit of the a fatality review stems from strong partnerships/relationships:
 - Information sharing
 - Increasing analytical capacity
 - Improving policies and procedures
 - Identifying and developing overdose reduction strategies

Collaboration

OFR mirrors collaboratives, partnerships, alliances, and coalitions.

OFR members:

- Work toward a common goal
- Establish formal and informal agreements
- Commit to work over the long term
- Leverage resources
- Acknowledge that no one agency can do it alone
- Work toward mutual interest
- Confidential

Moving Comprehensive Strategic Recommendations into Action

- Local level
- State level

Thank you!
