Family of Measures

MEASURE	GOAL
• Sites listed in REDCap conducting developmental screening	69%
• Sites receiving training on developmental screening	77%
• Sites changing protocols or practices to include developmental screening	74%
• PH professionals believing developmental screening work does not complement their other professional responsibilities	<20%

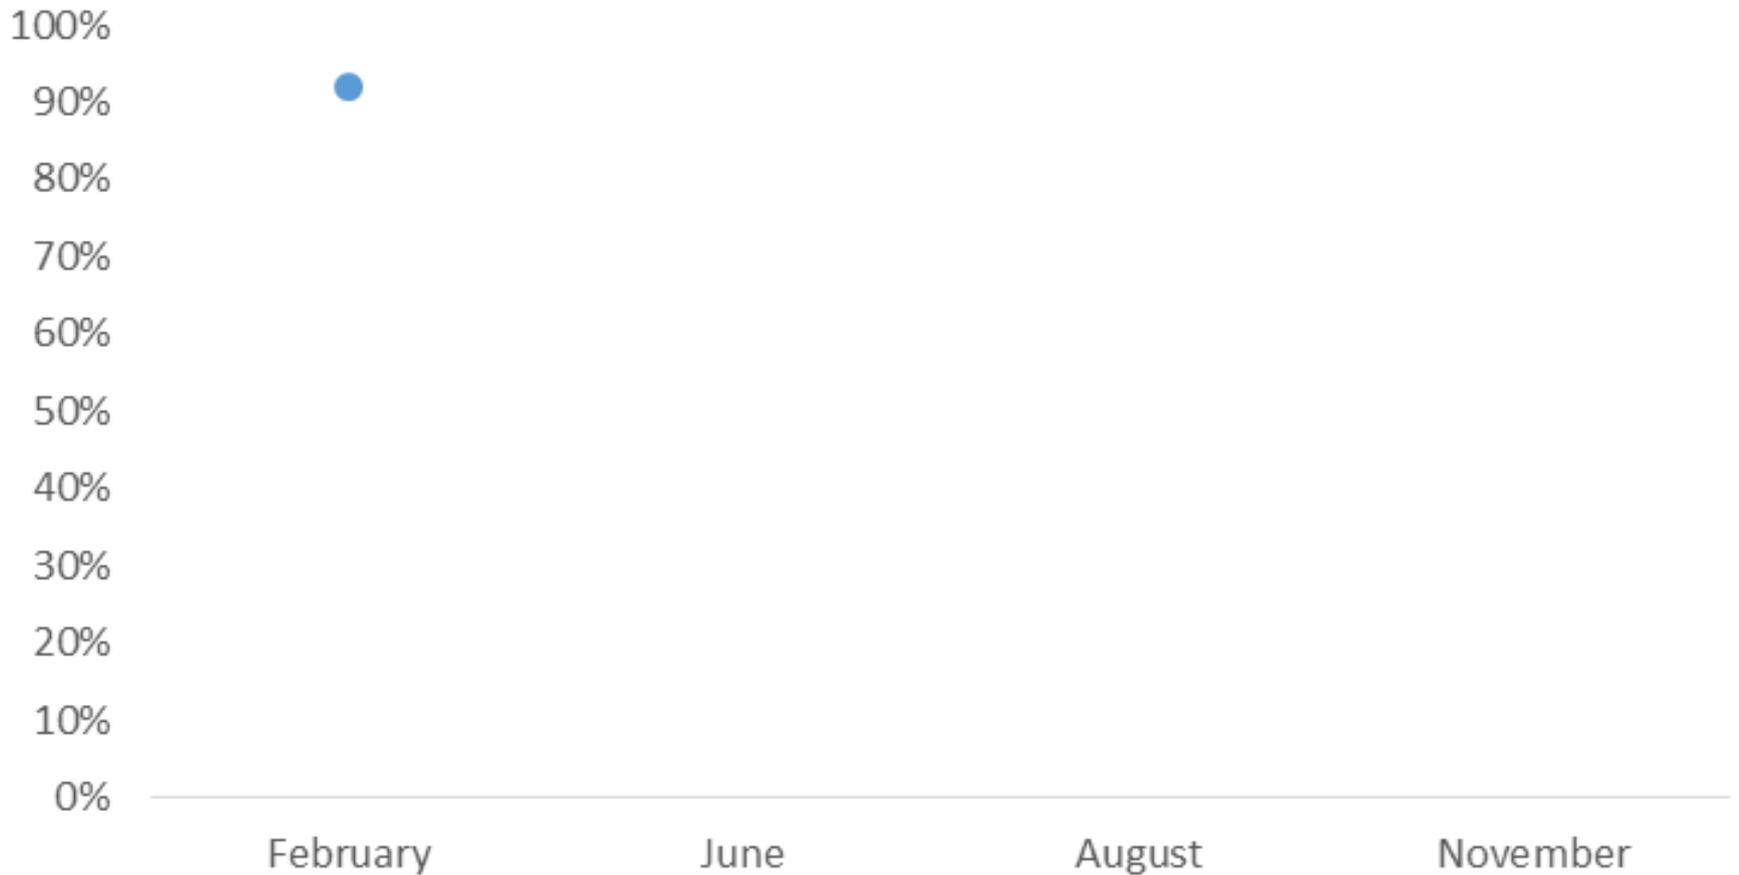

2019 Developmental Screening Quality Improvement Project

AIM	Drivers	Tests of Change
By December 31, 2019, 69% of sites listed in REDCap will be conducting developmental screening.	Local public health department provides education and promotion of developmental screening in their community	<ul style="list-style-type: none"> • Include information in birth letters to families • Provide trainings to specified target audience (physicians, child care providers, community partners) • Intentional outreach to target audiences via email, call and in-person meetings • Share information at a community event
	Collaborate with relevant partners	<ul style="list-style-type: none"> • Attend early childhood coalition meetings • Provide technical assistance to partners • Share best practices with or across Health Departments • Develop relationships with a clinical partner who is conducting developmental screening
	Promote screening availability by multiple partners in the community	<ul style="list-style-type: none"> • Explore who in the community is currently using screening • Provide screening opportunities at established events
	Advocate for systems (like WIR) that identify children in need of screening or appropriate follow-up	<ul style="list-style-type: none"> • Share data with partners to create common messaging • Work with statewide organizations including WPHA, WCHQ, WNA, WHA and WI AAP to discuss advocacy efforts • Identify a community champion to support advocacy efforts
	Conduct a community assessment	<ul style="list-style-type: none"> • Identify where screening is being done in your community • Identify what resources are available and what resources are needed • Identify who is interested in receiving training
	Promote established referral networks	<ul style="list-style-type: none"> • Provide information to partners on Regional Centers for Children and Youth with Special Health Care Needs • Provide information to partners on Well Badger • Maintain local listing of resources
	Participate in learning community opportunities on developmental screening	<ul style="list-style-type: none"> • Initiate discussions with other health departments in Life QI • Share resources and best practices in Life QI • Document your Plan-Do-Study-Act (PDSA) cycles in Life QI • Participate on learning community calls • Partner with the Medical Home Initiative for technical assistance

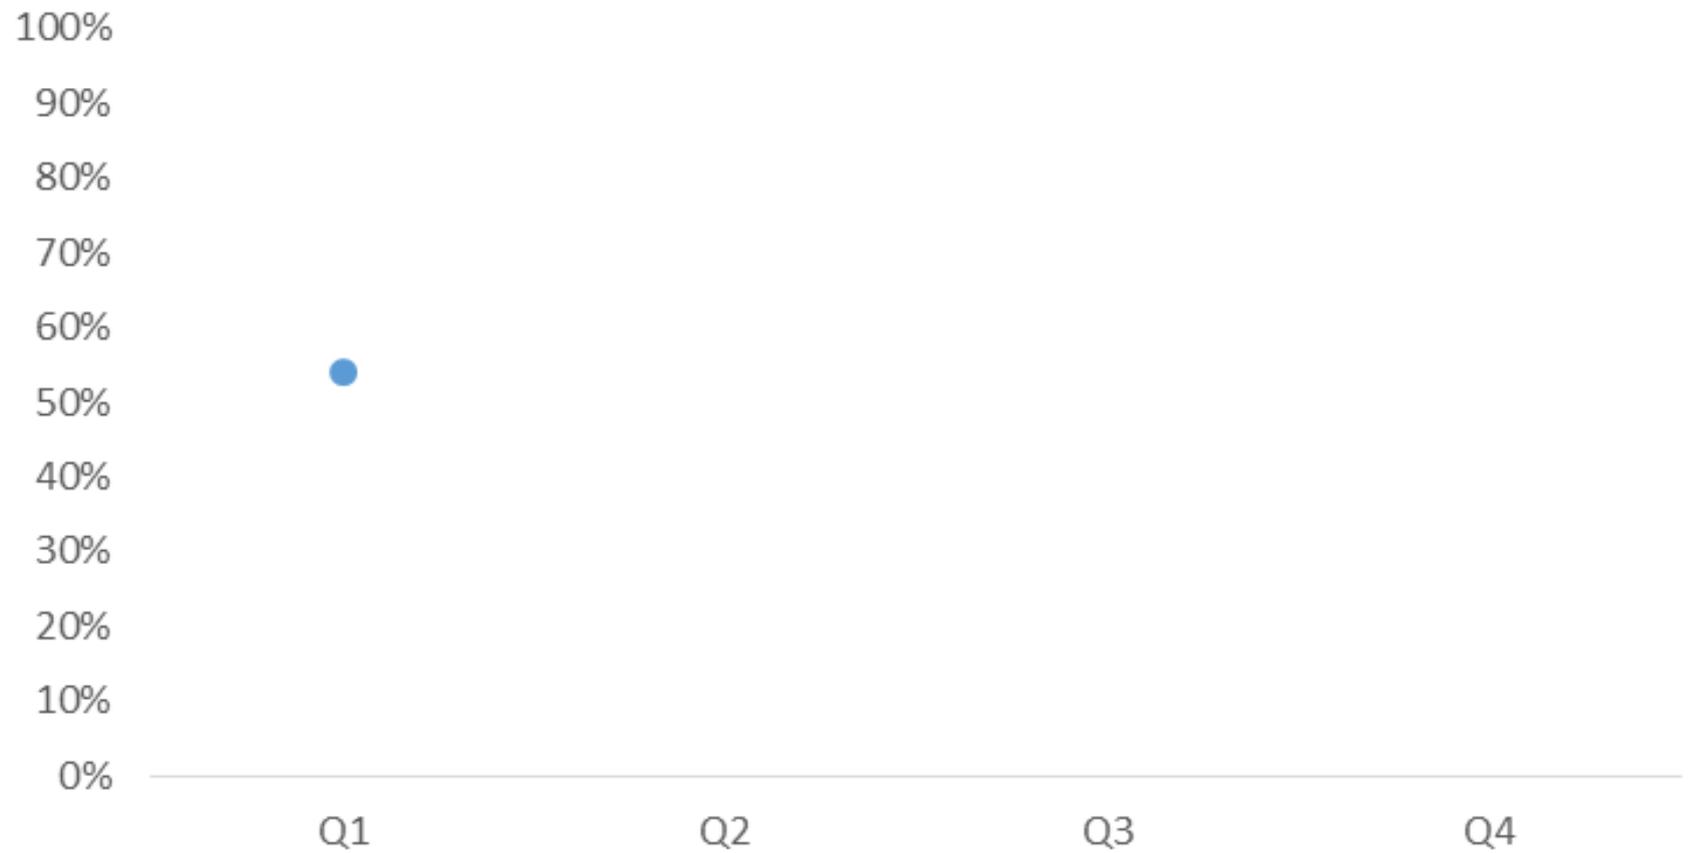

Measures

1. Percent of sites conducting developmental screening (Outcome)
2. Percent of sites that received training (Process)
3. Percent of sites that changed their protocols or practices to include developmental screening (Process)
4. Percent of LPHD professionals who disagree/strongly disagree that developmental screening work complements other professional responsibilities (Balancing)

Q1

Q2

Q3

Q4

Direction of goodness

Iowa County

- Item tested:

We were testing the knowledge that practitioners had about the ASQ screening tool.

Iowa County

- Tip:

Keep surveys short. Identify an ASQ champion in each clinic. It will be much easier to get feedback from other staff in the clinic.

Iowa County

- Question:

It's difficult to get appointments to speak with HC's in the clinic setting. How have others been able to speak with clinic staff in a timely way?

Chippewa County

- Item tested:

Invitation to all clinics to offer developmental screening training

Chippewa County

- Tip:

Utilize personal connections to try to get more places trained in developmental screening.

Chippewa County

- Question:

How do you convey the importance of this training to the clinics that you work with? A lot of clinics have a lot on their plates and how do we show them that this is valuable and not just “one more thing to do”?

Jefferson County

- Item tested:
 - Pilot: Newborn letter to families
 - WIC Outreach @ 6 months
 - Collaboration with Greater Watertown Community Health Foundation
 - Coordinating provider trainings at Fort Health Care

Jefferson County

- Tip:

Develop Strong Partnerships-
Strength in numbers

Attend other communities

Developmental Screening

Community Of Practices when it is possible (ie. Milwaukee), we did and learned MANY things, ideas and developed additional partnerships!

Jefferson County

- Question:

Does anyone else have a Public Health Developmental Screening Program and what are the main target audiences and where do referrals come from?

City of Milwaukee

- Item tested:
 - Connecting with Pediatricians of DAD clients with completed ASQs
 - Fatherhood Involvement Specialists in the Direct Assistance for Dads Project
 - Birth to Three Program consultation

City of Milwaukee

- Tip:

Getting staff/HV buy-in or participation before beginning a PDSA is important.

City of Milwaukee

- Question:

Do you have person on your team who regularly goes to Developmental Screening Training Updates or the Communities of Practice meetings?

Website Updates

Developmental Screening Project

Developmental Screening National Performance Measure

The Medical Home Initiative is supporting local public health departments and tribal agencies focusing on the developmental screening national performance measure. Agencies have the option of selecting one or more of the following focus areas: medical providers, child care providers or community groups.
