INTRODUCTION

The Milwaukee County Dental Access Directory has been created by the Milwaukee Oral Health Coalition (MOHC) with support from the Milwaukee Health Care Partnership. The purpose of MOHC is to develop and implement a community-wide plan, which evolves based off of need, to improve access to preventive, routine and urgent dental health services for low-income, uninsured and patients enrolled in Medicaid in Milwaukee County by building upon the existing strengths and best practice models.

This directory aims to advance our purpose by providing the community with a place to find a variety of dental clinic access information including the location, hours, payment practices, languages spoken and types of dental services provided.

We recognize that the information and services available through these clinics may change, and we will work to keep the information as up to date and relevant as possible. We also encourage users to confirm the information directly with community clinic partners prior to making a referral.

The directory is housed on the oral health page of the Children's Health Alliance of Wisconsin website. The most up to date copy can be found [here](#).

For more information, or to add or update clinic directory information, please reach out to [Kasia Wiech](#) at the Alliance.

Thank you to our partners and colleagues that have contributed to the development of this directory.

Wisconsin Seal-A-Smile (SAS) brings preventive dental services to children in more than 1,100 schools across Wisconsin. Wisconsin SAS is a collaborative effort between the Alliance, Wisconsin Department of Health Services and Delta Dental of Wisconsin. The program's mission is to improve the oral health of Wisconsin children by providing school-based dental sealants. Do you have questions about what Seal-A-Smile is and how it works? Watch our video for an inside look at school-based dental services and how they could benefit your child. Be sure to sign the consent to participate.
