Team based care

Floor Dental Hygienist Model

- Patients seen during well-visit workflow
- Screening
- Education
- Fluoride Varnish
- Silver Diamine Fluoride
- Referral for treatment

Collaborative Vision

- Statewide system change within Health Care Organizations to integrate a dental hygienist into medical clinics to:
 - **Improve access to primary preventive oral health services**
 - **Decrease dental disease burden**

Collaborative goals

- **System Change**

- Increase in health care teams that include a dental hygienist.
- Increase patient understanding of integrated oral health model.

- **Access**

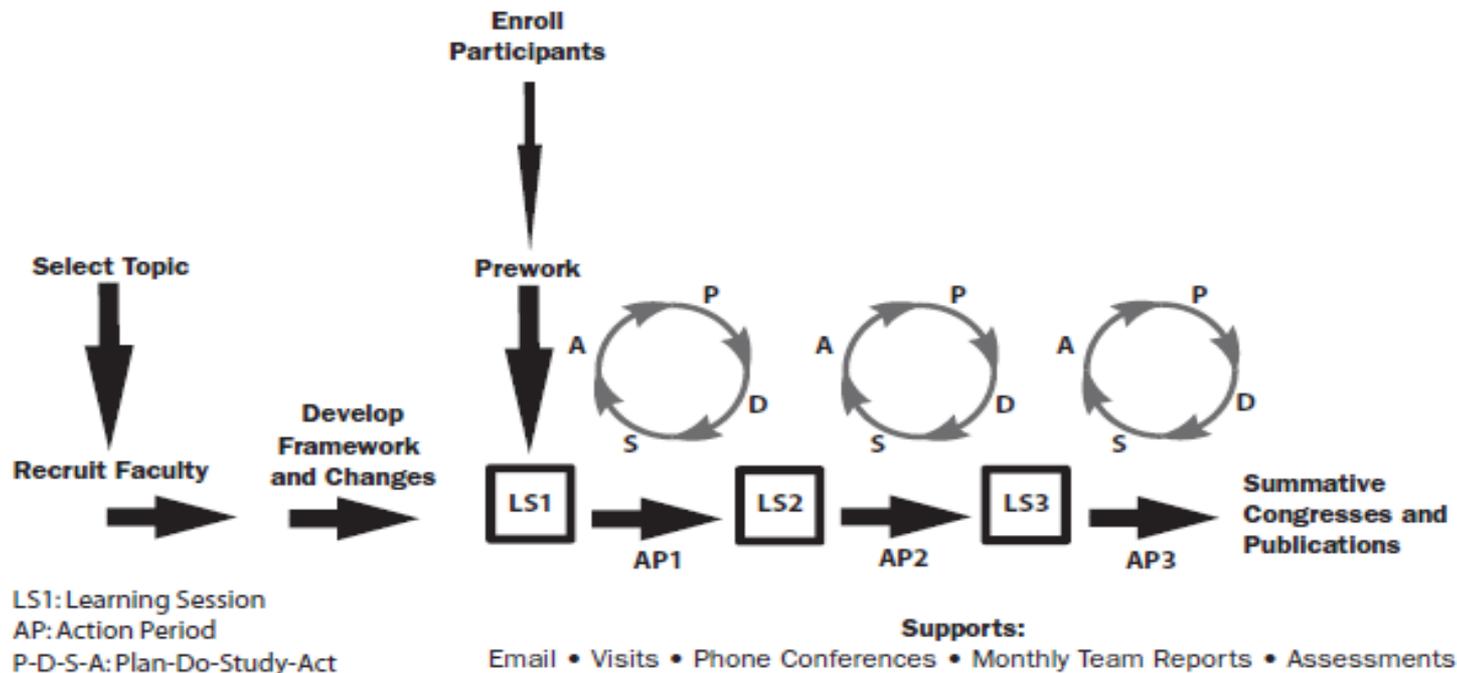

- Increase access to primary preventive oral health services.

- **Disease Burden**

- Decrease untreated dental caries
- Decrease caries experience
